

# A.Cargo manifested

**\*\*must be submit at least 7 working days before arrival only**

An applicant importing pets by air cargo to Thailand through Suvarnabhumi Airport needs to obtain an import permit in advance by submitting the relevant documents below at least 7 working days prior to importation;

1. An application R1/1 form ([Click here to download](#))
2. Copy of Importer's passport
3. Pet's photo with its face clearly shown
4. Vaccination record\* (must be in English) which includes
  - a. Pet's details (breed, sex, DOB, color, and microchip no.)
  - b. Veterinarian's details who administrates vaccines (full name, license number, and signature)
  - c. Dog: Rabies\*\*, Canine Distemper, Canine Hepatitis, Canine Parvovirus, and Leptospirosis\*\*\* vaccines
  - d. Cat: Rabies\*\* and Feline Panleukopenia vaccines

Please submit the required documents above in a PDF file and send it to [qsap\\_bkk\\_import@dld.go.th](mailto:qsap_bkk_import@dld.go.th). For the importation of more than one pet, the documents should be attached separately, one animal for one pdf file.

The staff will review the documents and send an import permit by email within 7 working days. Make sure that you comply with all requirements. If the documents are incomplete, the process will take longer.

An import permit is valid for 60 days. If a flight, date, and time are rescheduled within 60 days, it can be used without applying for a new one.

## Remarks:

\* In case of primary or discontinuity vaccination, animal must wait for 21 days since vaccination before departure. However, animal has valid booster vaccination, a waiting period is not required and the previous vaccination records should be attached.

\*\* In case of primary Rabies vaccine: animal was at least 12 weeks old at the time of administration.

\*\*\*In case of dogs that did not have a valid Leptospirosis vaccine: dogs must have a negative result for the Leptospirosis test within 30 days prior to departure
